A Guide for Patients and Caregivers

Julia, living with aHUS
No matter where you are in your journey, OneSource is here for you.

Meet OneSource. We’re here to help.

OneSource is a complimentary, personalized patient support program offered by Alexion and tailored to the specific needs of people living with aHUS, gMG, HPP, LAL-D and PNH.

When you enroll in the OneSource program, you’ll work with a dedicated team of OneSource Nurse Case Managers who are nurses with expertise in rare disorders and the healthcare system.

We’re always here … to help.
Your OneSource Nurse Case Manager—a valuable resource along this journey

Your Nurse Case Manager is your primary contact with the OneSource team. Together we will plan the best approach to your needs.

Your OneSource team can help with health insurance navigation, disease information, treatment logistics, continuity of care and community connections—to make sure you receive the appropriate support.

Every OneSource Case Manager is a nurse who has received advanced education on your condition, treatment, health insurance reimbursement options, and resources available to you.

They are here to help answer any questions you might have.

Health Insurance Navigation

Navigating health insurance can be overwhelming, and not everyone has adequate coverage. At OneSource, we can assist with the navigation and identify alternative options for you.

Your nurse case manager can refer you to external community resources and alternative funding options.

Disease Information

While your condition may be rare, it’s not rare to us — we work with it every day.

We will collaborate with your healthcare team to support your understanding of your disease.

Albie, living with LAL-D
Continuity of Care

Life moves quickly and OneSource is here to keep up with you. Whether you are going on vacation, traveling for business, moving, heading to college, or changing insurance, your OneSource Nurse Case Manager can help.

It’s important to understand and follow your doctor’s plan of care. We’re here to assist in coordination of that plan.

Community Connections

Sometimes you might feel like you are the only one with your condition, but it’s important to know that you are not alone.

OneSource Nurse Case Managers understand and can connect you to other people living with your condition by letting you know about:

- In-person and online events
- Patient meetings
- Advocacy groups
- The opportunity to connect with other individuals living with your condition

Remember, we’re just a phone call or a quick message away. Always ready to help.
